Student Loans

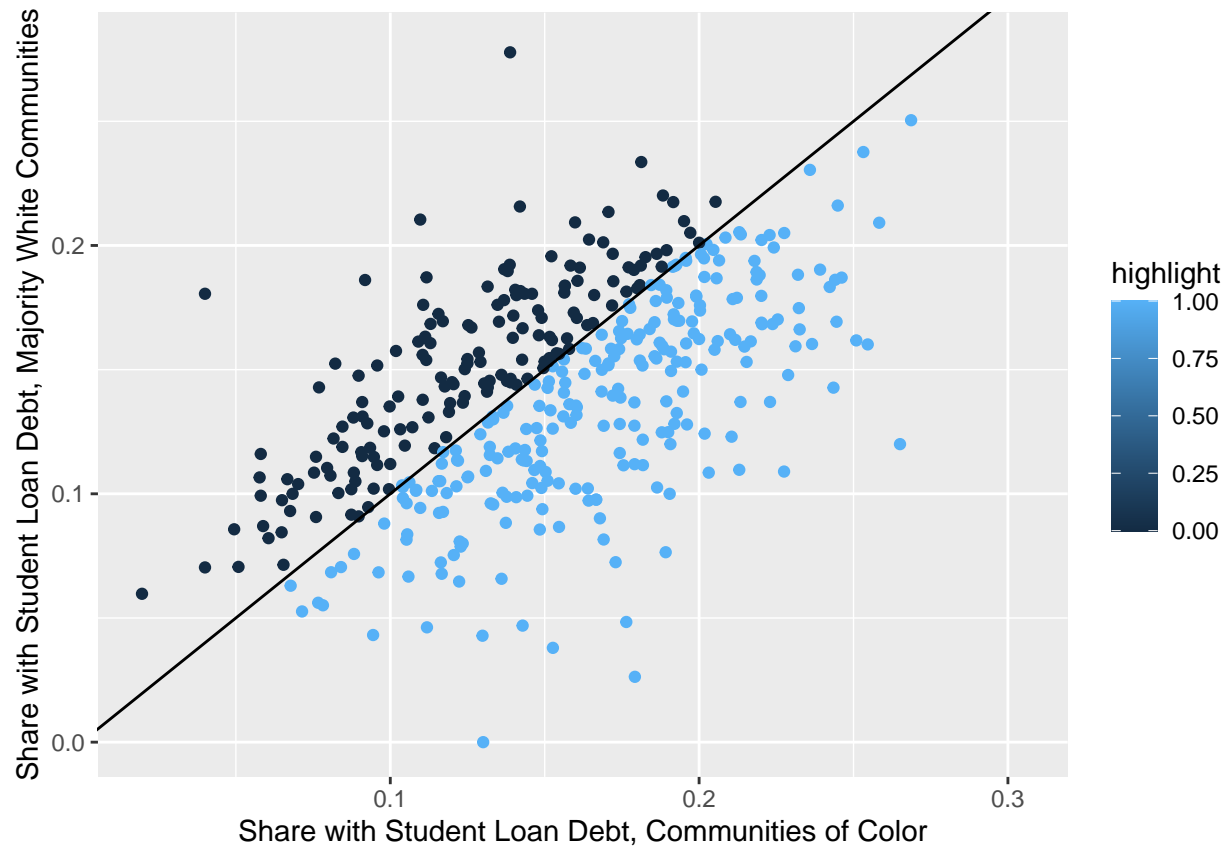

United States

- the numbers following the graphs count the number of blue dots (i.e. the geographies where the communities of color have a higher median or share than majority white communities)
- the fraction after is the proportion to all of the available data

```
## [1] 69
```

```
## [1] 0.2771084
```

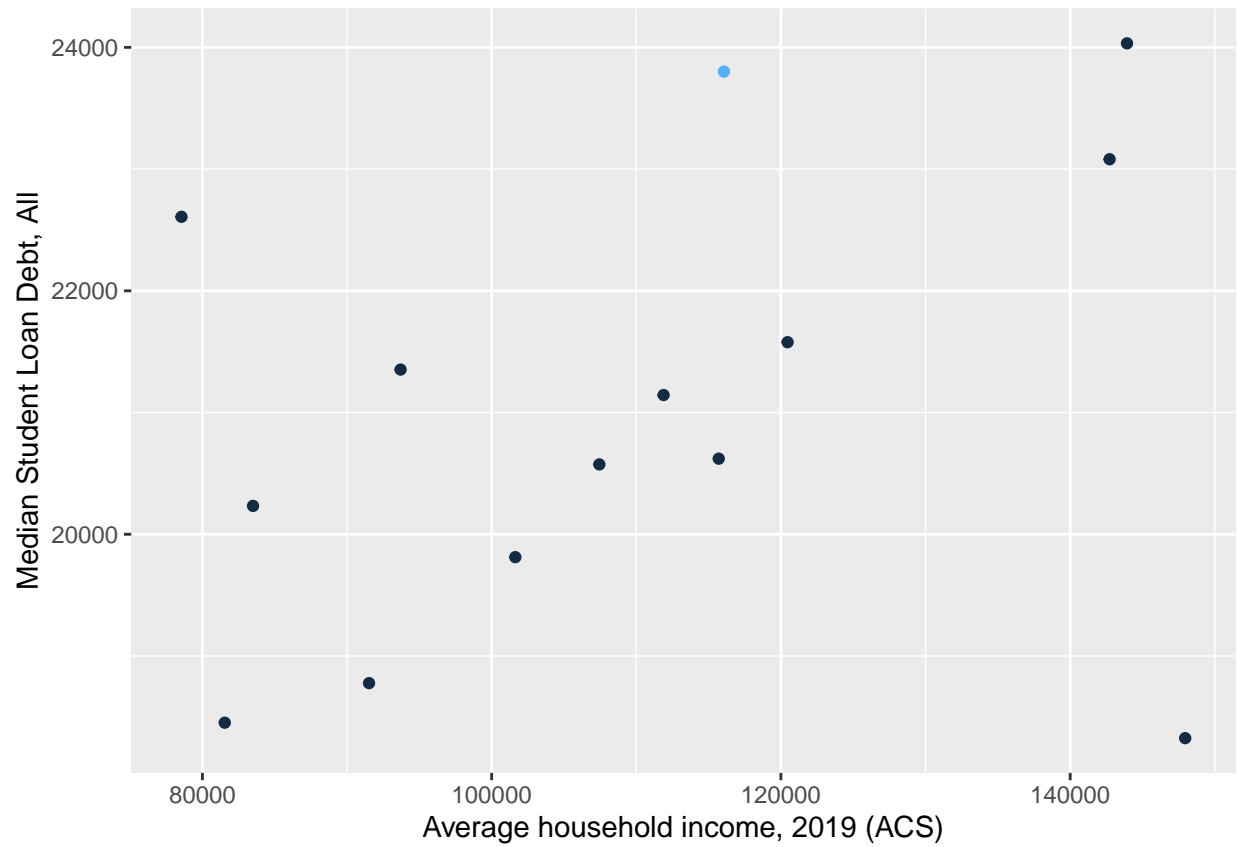

```
## [1] 251
```

```
## [1] 0.6062802
```

Massachusetts

- Suffolk county is highlighted in blue

- the outlier on the bottom-right is nantucket county

What's interesting about this is the measurement of income and not wealth

Race
